We are pleased to announce the Knowledge Translation (KT) Canada Summer Institute to be held in Toronto from June 26-28, 2017. The purpose of this Summer Institute is to provide participants with the opportunity to increase their understanding of knowledge translation research as well as opportunities and challenges in this field. The Summer Institute will provide participants with the chance to network with colleagues including national and international KT experts.

The theme of the 2017 Institute is:
"Patient oriented research"

The Summer Institute is aimed at graduate students, post-doctoral and clinical fellows, and junior faculty and research staff who study issues relevant to KT and those who want to learn more about how to advance their research skills in this area. We encourage applications from a wide range of disciplines that span all of CIHR's research themes (biomedical, clinical, health services, and population health).

Cancellation policy:

Refunds will not be issued for cancellations received after June 12, 2017. A processing fee of \$60 will be retained on all cancellations. Requests for cancellation must be made in writing. Registrations are not transferable. KT Canada reserves the right to cancel events. Registrants will be notified at the earliest possible date in the event of a cancellation. Registration fees for events cancelled by KT Canada will be refunded; however KT Canada will not be liable for any loss, damages or other expenses that such cancellations may cause.
