## Clinical and Basic Research Overhead Policy

### **Purpose**

---

The purpose of overhead charges is to compensate the Hospital for both the direct and indirect costs related to conducting research.

### **Application**

---

#### **Scope**

The policy is applicable to all investigators undertaking research sponsored by the private sector, also known as industry funded, that occurs on Hospital premises or uses Hospital resources.

### **Current Rate of Overhead**

St. Michael's Hospital's current rate of overhead is 35% and pertains to both clinical trials and basic science research. This rate is subject to revision by the Vice President of Research.

### **Date of Enactment**

This policy at the current rate of 35% has been fully enacted as of August 16, 2016.
